

STAINLESS STEEL FINISHES

ABOUT US

At Royal Decor Steel (RDS), we push the boundaries of architectural and decorative stainless steel, delivering cutting-edge designs, superior durability, and sustainable solutions. With a commitment to precision and innovation, our products are crafted to enhance aesthetics and functionality across various industries.

From architectural masterpieces to everyday applications, our stainless steel materials are designed to withstand corrosion, fire, and environmental challenges, ensuring longevity and elegance. With a wide selection of finishes, colors, and patterns, RDS continues to redefine the global standards of quality and design.

01 Architecture Stainless Steel

Royal Decor Steel offers innovative stainless steel cladding with premium finishes, perfect for residential and commercial interiors and exteriors. As demand for unique materials grows, metallic finishes have become a stylish alternative to fabric, wood, and ceramic. Renowned architects and designers worldwide trust Royal Decor Steel for their projects.

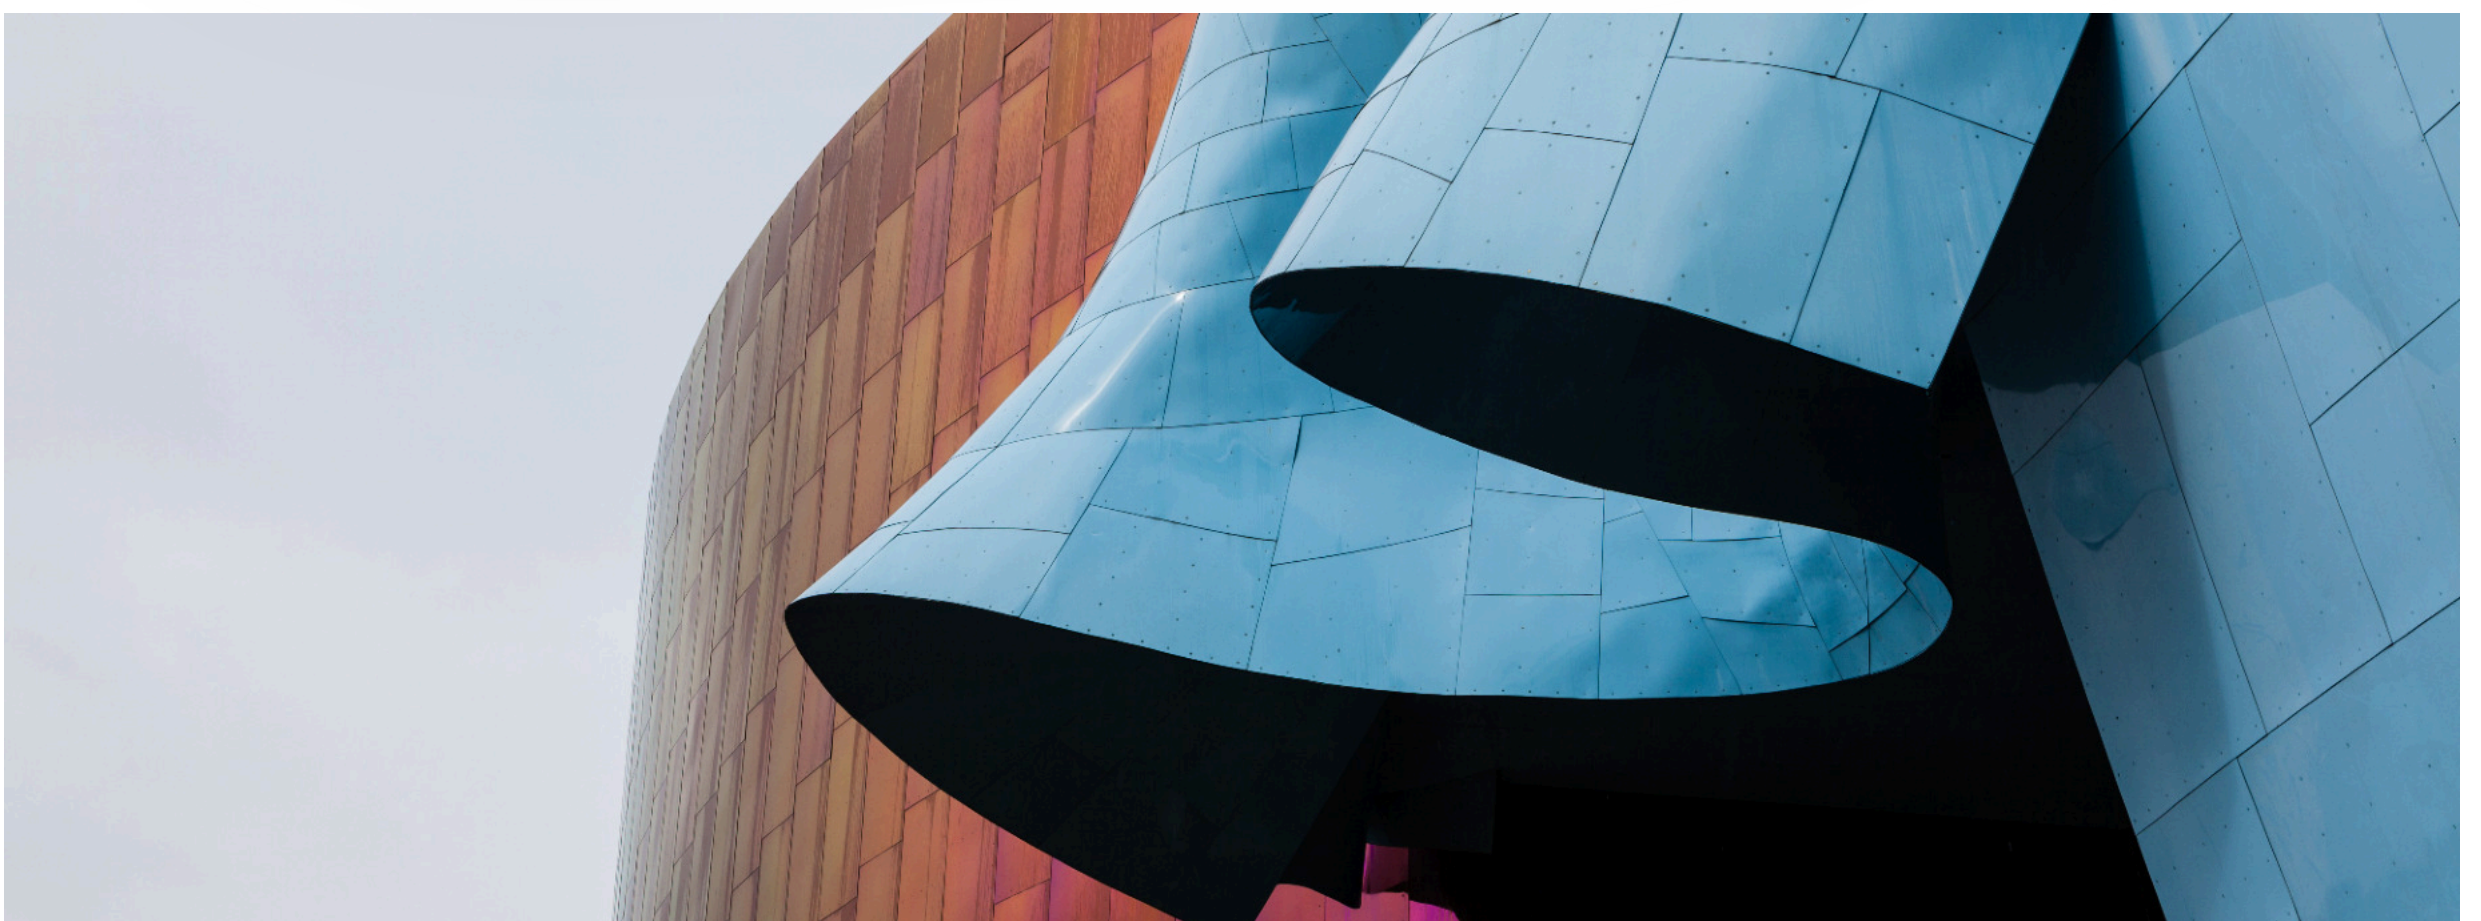

FINISHES & COLORING

02

- **Titanium Coating:** Durable, vibrant, and wear-resistant.
- **Vibration:** Non-directional matte finish.
- **Brushed:** Textured finish with varying grain intensity.
- **Super Mirror:** Highly reflective, mirror-like polish.
- **Bead Blasted:** Low-reflective, uniform surface.
- **Hairline:** Fine, directional brushed finish.
- **Embossed:** Textured patterns for a decorative look.
- **Scotch Brite:** Soft, subtle brushed effect

QUALITY & SERVICE EXCELLENCE

QUALITY CONTROL

Our expert specialists ensure rigorous quality testing, reinforcing our position as an industry leader.

YOUR ORDERS

We'll do our best to process your order as fast as possible to get the material in your hands on time.

LIFETIME WARRANTY

We stand behind the legendary quality and craftsmanship of all our products.

DELIVERY

Our expert specialists ensure rigorous quality testing, reinforcing our position as an industry leader.

FASTEST LEAD TIME

We offer same or next day delivery. This is the fastest lead time all over the industry.

STURDY PACKAGING

We use heavy-duty wooden crates to package sheets for "over the road" shipments.

NEW SOLUTIONS

▶ ECOFRIENDLY

100% recyclable and made with up to 70% recycled content, stainless steel is the top choice for green building worldwide. Its durability, low maintenance, and eco-friendly production make it ideal for sustainable construction.

▶ ANTIMICROBIAL

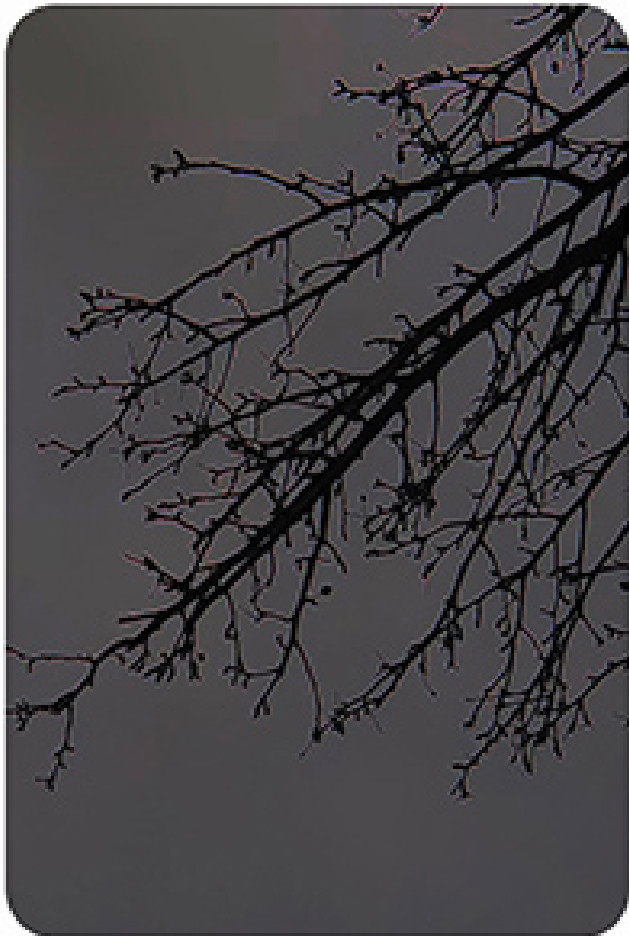

RDS Nano Coating is an advanced antimicrobial technology designed to inhibit microorganism growth on surfaces. By reducing the risk of healthcare-associated infections, it enhances hygiene and safety in various environments.

▶ ANTI-FINGERPRINT

Our AFP process minimizes fingerprint traces on stainless steel surfaces, making it easy to clean dirt, smudges, and even graffiti—leaving no residue behind.

Super Mirror

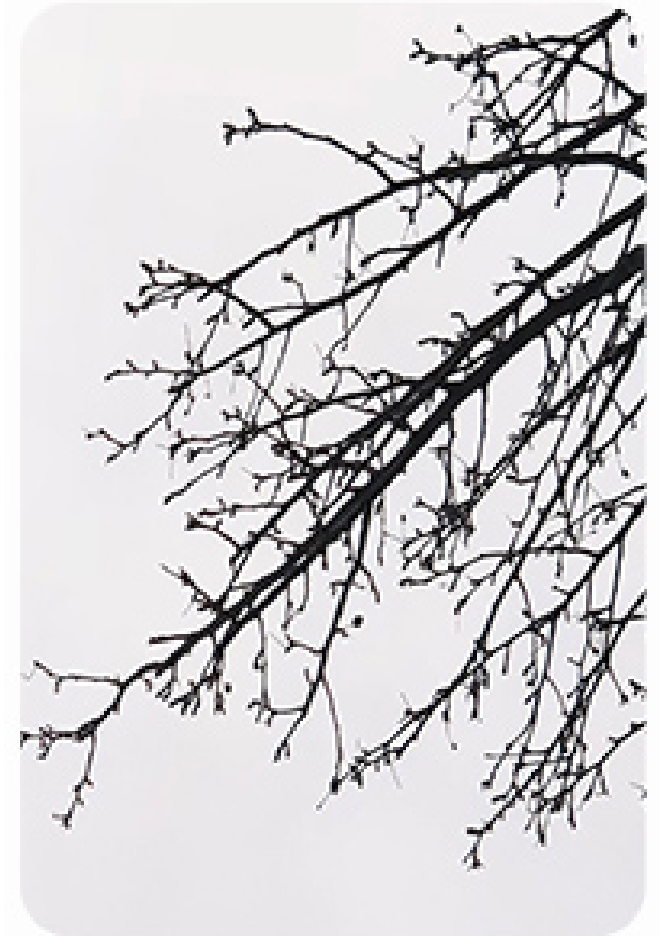

Royal Decor Steel's Super Mirror stainless steel offers a flawless, glass-like reflection with no grain or blemishes. Shatterproof and highly durable, it enhances light and space, making it ideal for food prep areas, ceilings, and high-traffic spaces. Easily fabricated, it can be folded, rolled, and engraved.

Titanium Coated Brushed

A popular architectural finish, No. 4 offers a bright, unidirectional polish achieved through abrasive belt or wet polishing. It is durable, versatile, and resistant to moderate wear, making it ideal for high-use components.

Titanium Coated Hairline

Hairline finish, or long-grain, has a more consistent grain than No. 4, with fine, continuous polishing lines for a sleek, reflective look. It allows on-site scratch repairs and is often mistaken for No. 5 or No. 6 but differs in production.

Titanium Coated Vibration

Royal Decor's Ti-colored bead-blasted stainless steel features a matte finish, created by high-pressure abrasive blasting to smooth the surface before applying a durable PVD color coating. This process ensures a bright, uniform, and highly resistant finish.

Titanium Coated Bead Blasted

Royal Decor's bead-blasted stainless steel sheets have a matte finish with a Titanium color coating. Titanium stainless steel sheets get bright, uniform Titanium coloring. Slight color variations may occur. A 3/8-inch margin is non-usable if visible.

Titanium Coating

Why Titanium Coating is Preferred?

Titanium coating offers superior durability, corrosion resistance, and environmental benefits compared to traditional methods like electroplating or painting.

- Highly durable – Harder and more wear-resistant.
- Corrosion & UV resistant – Won't discolor or tarnish.
- Eco-friendly – More sustainable than electroplating.
- Versatile – Available in various colors and finishes.
- Cost-effective – Mimics expensive materials like bronze, brass, and gold while requiring minimal maintenance.

Premium Ti-Colored Embossed Stainless Steel Sheets

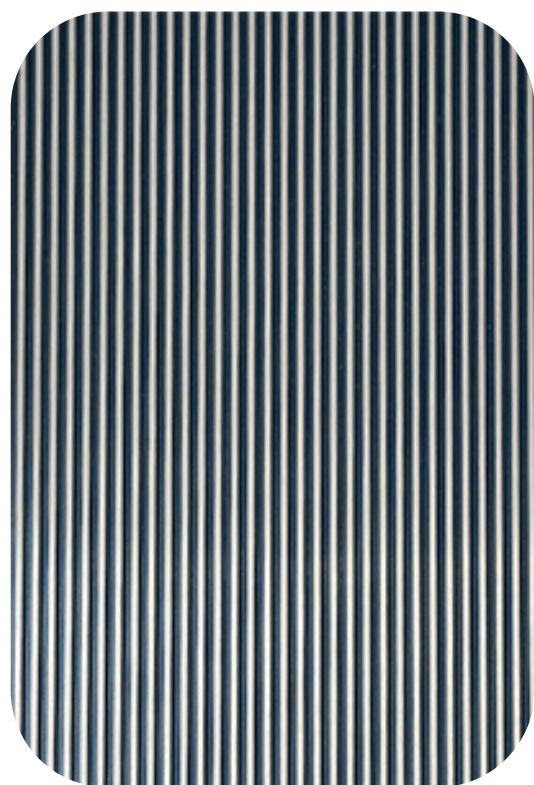

Embossed stainless steel sheets feature rolled patterns for durability in high-traffic areas. Our PVD-coated titanium sheets ensure vibrant, uniform color with exceptional resistance.

Minor color variations may occur due to material reflections, and colors are indicative only. A 3/8-inch margin along the edges should not be visible in final applications.

INCO Colored Stainless Steel Sheets

INCO-colored sheets are created through an electro-coloration process that forms color by light interference without using varnish or coatings. This method alters the surface appearance through oxide layers, maintaining the natural corrosion resistance of stainless steel

05 ELEVATOR INTERIORS

DID YOU KNOW?

Did you know that all our colored sheets come with our revolutionary Anti-Fingerprint (AFP) coating?

AFP is a transparent nano-ceramic coating designed to prevent fingerprints and stains on stainless steel surfaces. This advanced coating makes it easy to wipe away fingerprints, dirt, grime, and even graffiti—no need for harsh cleaning agents.

Beyond its aesthetic benefits, AFP also enhances durability. It forms a protective barrier against oxygen and moisture, strengthening the material's resistance to corrosion while increasing the surface hardness of stainless steel.

LIFETIME WARRANTY

We proudly offer a Lifetime Warranty on our Titanium products. If you ever experience manufacturing or workmanship defects, we'll replace your product—ensuring lasting quality and reliability. Invest with confidence, knowing you're getting the best in durability and performance.
